SUMMARY

Flutter Developer and UI\UX Designer with expertise in front-end development .

TECHNICAL SKILLS :

- **Frontend** : JavaScript, ReactJs, Flutter
- **Backend** : Python, PHP
- **Database** : MySQL, Firebase
- **Design Tool** : Figma

EXPERIENCE :

Flutter Developer - Freelancing | 2023 - Present

- Developed and maintained cross-platform mobile applications for iOS and Android using Flutter.
- Designs several types of application Interfaces using Figma

Flutter Developer - Resmoh IT | Apr 2024 - Present

- Working as a Inter at Resmoh IT.
- Developed and maintained UI components for mobile applications using Flutter.
- Integrated APIs to enhance application functionality and performance.
- Conducted testing and debugging to ensure the reliability and efficiency of the applications.

PROJECT:

DineSmart - Smart Dining Application

Tech Stack: Flutter, Firebase (Authentication, Cloud Firestore, Realtime Database), QR Code Scanner Package.

- Real-time order tracking feature, enabling customers to track their orders from placement to delivery in real-time.
- Integration with Firebase for user authentication, data storage, and real-time synchronization, ensuring seamless communication between customers and restaurants.
- Intuitive user interface with QR code scanning, menu browsing, order placement, and payment processing, resulting in enhanced user engagement and satisfaction.

SpotOn - Skin Cancer Detector

Tech Stack: Flutter, Firebase (Authentication, Cloud Firestore, Realtime Database), QR Code Scanner Package.

- Convolutional Neural Network (CNN) model for image classification, enabling the app to analyze skin images and provide predictions on the presence and type of skin cancer.
- Integration with Firebase for image storage, user authentication, and data synchronization, ensuring secure and seamless communication between users and the backend server.
- Intuitive user interface with features such as image capture/upload, prediction results display, and educational resources on skin health and cancer prevention.

Beauty E-commerce Application

Tech Stack: Flutter, Dart, Firebase.

- Developed the frontend of an e-commerce application tailored for the beauty industry using Flutter framework and Dart programming language.
- Implemented a custom shopping cart system that encourages customers to purchase products in pairs, enhancing sales and user experience.
- Designed and integrated intuitive user interfaces for product browsing, selection, and checkout processes.

EDUCATION :

Assam Don Bosco University, Azara Guwahati | Bachelor of Computer Application | 2021 - 2024
